NRO review(s) completed.

4 January 1966

MEMORANDUM FOR: Mr. H. Knoche

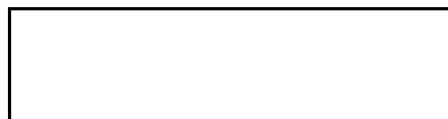

SUBJECT: IG Survey of Industrial Security

REFERENCE: Your Memo dated 13 December 1965

1. You asked for my comments on the second part of the IG's recommendation 10: "If the Agency must retain inspection and review responsibility for DOD contracts under the NRP, include in an Agency Regulatory Issuance clearly delineated assignments of functions to the DD/S&T Security Staff and to the Special Security Center for the discharge of that responsibility".

2. I believe it is desirable to have delineations of responsibilities of the Special Security Center and the DD/S&T Security Staff for security surveys and reviews of DOD contracts under the NRP. I understand the Office of Security is planning to prepare a proposed regulation or instruction setting forth the responsibilities of the Special Security Center and others in this respect. I think this is a good step.

3. With respect to the costs to CIA involved in inspecting security programs of DOD contractors engaged in the NRP, only two or three Staff Employees are involved in carrying out these functions.

Director of Reconnaissance, CIA
